Mineral King District Association
1438 So. Clark St
Visalia, Ca.

Dear Friends;

I regret that I have not joined your ranks long before this, but I have assumed that John Crowley who takes care of the Crowley Cabin affairs for the family had made the family a dues paying member.

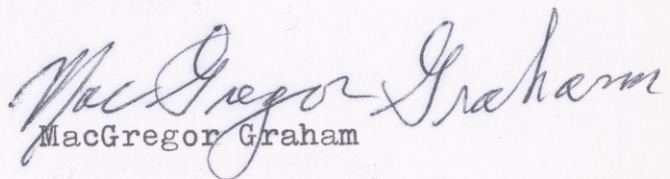

I was stirred to action today because an article in the San Francisco Chronicle on the 23rd carried a report that the substantial earnings from offshore oil operations were to be used to purchase lands to increase public ownership of recreation lands--and there was specific reference to Mineral King.

Is the Park Service getting any more aggressive along such lines? Have you any plan of action under which we could work together to prevent the average cabin owner from being ousted from his precious spot?

I cannot figure what benefit there will be if they do succeed in getting us all out--the numbers who could then enjoy our beautiful area would then be greatly restricted. I would appreciate hearing your thoughts on the subject.

Enclosed is my check for \$10.00 for the Crowley Cabin membership or if one is already in force, this is for me, personally.

Yours Sincerely,

MacGregor Graham
